JULES YELNER

Jules, the clockmaker, was born in Philadelphia and grew up in Brooklyn. He's worked with wood ever since he was able to hold a hammer, and has had a love affair with tools ever since. A self-taught carpenter and craftsman, Jules has an affinity for visualizing his ideas and fabricating unusual and whimsical pieces.

Each Jules Yelner clock is individually constructed from carefully chosen hard woods and painted by hand to achieve a unique, handcrafted quality. Slight variations in the wood and painting should be expected, and serve to enhance the originality of each piece. The artist can create any custom color to suit your needs.

He currently resides in Florida with his bride of 58+ years, Edythe.
